E-Mail: **martmnsh@gmail.com**

PERSONAL PROFILE

I just finished my internship at Digital-IT Onpoint Solutions after finishing my last year as a student towards completing a Diploma in Information Technology at Mount Kenya University. I have developed relevant skills in analytics and development through the years of studying. I am self-motivated and open-minded to garnering new knowledge, a technology enthusiast, result-oriented and a team player. I am very passionate about secure software development and information / cyber security.

I am looking for an industrial position opportunity to further my knowledge and skills in addition to that received in due of my course and my previous internship.
